majority in the October election.

THE Democratic party has at least shown the courage of its convictions by organizing and putting a straight ticket in the field.

Jumbo was a conspicuous figure in the People's circus here last week. His trunk is not fully developed yet but his pocket was large enough to hold the proxies of the Pecos precincts which he manipulated at the will of his trainer.

The famous Pecos proxies did some very artful dodging when they slipped unawares from the pocket of the original holder into the pocket of the fellow on his left and then back again by the way of the ballot box to their original hiding place.

Anthony Joseph's election to Congress is assured beyond a reasonable doubt, will devote but little space to territorial politics, and turns its whole attention to county matters where the stright Democratic party is making a square fight against all comers, be they mongred, mayeric or of the county between now and the hoofs, horns or campaign slush,

Carpetbaggers to the front!

WEBB, of the Gazette says majority. If that be so his majority in the territory can readily be estimated, for in the counties remaining he will make about a stand-off with the Rynerson and Prince factions.

The Democratic party is now passing through a very trying ordeal. It is being boycotted by the Blaine management, petticoated by Belva Lockwood, spooned by Ben. Butler sour mashed by St. John. If it manages to pull through all these tribulations and yet preserves its self respect, the world will know that it is a safe party to trust.

THE Peoples Circus endorsed Gonzales. Of course it did. Any man who has such a fatherly care and partriarchal regard for the needs enacted to prevent them from fencespool or two of barbed wire thrown
